**Help Us Celebrate
Our Newest
Window Offering!**

DESCRIPTION: Ringer Windows is please to announce the addition of our newest window line with our Resolute 4200. Our Resolute 4200 is a non-tilting premium grade window that features super clean looks with a smooth frame design, durable rock solid reliability, and unsurpassed energy efficiency. By simplifying some of the options and design features, we are able to offer these fantastic premium windows at really low prices!

To celebrate our new Resolute 4200 window series, we're offering a very limited Special Offer to commemorate the launch of our newest window. You can purchase a full home of Resolute 4200 Windows for the same cost as our less expensive Value Window Series with our Performa 3300. The more windows you do, the more you'll save of course but the average cost savings on a 15 window installation runs \$525, **AND THAT'S NOTHING TO SNEEZE AT!**

Our Resolute 4200 is a brand new flagship window system here at Ringer Windows. We currently carry this window in White and Clay colors, and it's available in Single Hung, Single Slider, 3-Lite Slider, and Regular Fixed Picture Windows. We're adding Almond by end of the year 2017, as well as special shapes and radius windows, so a few windows might take a bit longer to complete if shapes or Almond is needed (but the savings offer remains good as long as you purchase in October 2017!

There are very few stipulations with this special offer. Quite simply, we want to showcase this great new Flagship window to the public as fast as possible!

Here are the rules & stipulations.

1. RES4200 cannot be combined with any other special offer.
2. This Special Offer only applies to full-home window replacements or with partial replacements that includes at least 12 windows.
3. Sold windows will be installed normally, during our installation queue as the windows are available. †

† Almond colored windows and some special shapes will take a bit longer to produce. These jobs will installed as soon as these can be made, during our normal course of operations.
